PROFESSIONAL SUMMARY

Growth-focused Product Manager with 4+ years scaling D2C and e-commerce products through experimentation, funnel optimization, and AI-powered product development. Proven track record of driving multi-fold revenue growth, building analytics infrastructure from scratch, and embedding data rituals that shape weekly product decisions. Skilled at partnering with engineering and design to ship high-impact features end-to-end.

PROFESSIONAL EXPERIENCE

Pilgrim <i>Product Manager</i>	Mumbai, MH <i>Feb 26 - June 26</i>
- Drove 12% lift in Add-to-Cart (8.01%→8.97%) and 8.85% AOV increase (₹624→₹678) by owning App & Web growth roadmap, synthesizing user research and funnel diagnostics to prioritize experiments. - Launched Wishlist feature with 3.5%+ week-one adoption, identifying a 2.7x high-intent segment; targeted re-engagement campaign for this segment drove 18% higher conversion vs. standard campaigns. - Built a cost-optimized analytics pipeline from scratch, cutting analytics costs from ₹3L to ~₹14K/month (~95%) and enabling section-level click tracking that became the foundation for the experimentation roadmap. - Introduced Claude-powered development and QA automation workflows (including Maestro.dev MCP integration with Claude) across the engineering team, cutting manual QA effort by 50% and accelerating sprint velocity. - Built an Order Reconciliation Dashboard unifying Shopify, EasyEcom & ClickPost data to flag fulfillment discrepancies and revenue leakage; implemented Shopify-Claude MCP integration automating catalog operations, cutting manual effort by ~80%.	
Pluckk (Essar Group) <i>Product Manager</i>	Mumbai, MH <i>Dec 24 - Feb 26</i>
- Identified perishable inventory loss as a top-3 margin risk; designed a real-time predictive liquidation engine (sales-momentum based, tiered discount logic) cutting ageing-inventory losses by 55%. - Owned end-to-end design of an automated SO–PO reconciliation system (OCR + email extraction) across 200–300 daily orders, auto-booking 70% in Zoho Books without manual touch - cutting reconciliation effort by 2–3 hrs/day and accelerating receivables. - Redesigned SKU-level ops-cost allocation model, improving OM% accuracy and enabling data-backed pricing decisions for category managers. - Built a predictive sales projection tool using order velocity and seasonality signals, adopted for weekly planning and reducing overstock-driven liquidation by ~30%.	
Traya Health <i>Product Manager</i>	Mumbai, MH <i>Mar 22 - Dec 24</i>
- Owned the web growth funnel for 2.5+ years, contributing to scaling daily revenue from ₹4L to ₹1.1Cr (30x) through an experiment-led roadmap and conversion-focused UX iterations. - Identified female users (30% of traffic) converting at half the rate of males due to a male-coded funnel; rebuilt three product touchpoints (LP, form, result page) driving 2x conversion lift (2.5%→5.3%); female daily revenue grew from ₹1.75L to ₹22.5L over the same period. - Built a post-purchase login module surfacing personalized Month 2 kit recommendations with countdown trigger (D20); paired with WhatsApp retention segments, improved repurchase rate 33%→48% (46% lift) compounding across M3–M5 and improving LTV. - Built personalized app onboarding with a template-based CMS, reducing cognitive drop-off for organic users and improving activation rate 55%→68% with ~22% drop in uninstalls.	
Fractal Analytics <i>Project Intern</i>	Mumbai, MH <i>Jan21 - Jun21</i>
Executed image scraping operations while simultaneously managing the associated reports.
