PROFESSIONAL SUMMARY

Product Manager with 4+ years across consumer growth, D2C commerce and experimentation, specializing in conversion, activation, retention and product analytics. Owned growth funnels at Traya and Pilgrim, with additional exposure to 0→1 MVP launches, translating user research and funnel diagnostics into measurable product outcomes.

PROFESSIONAL EXPERIENCE

Pilgrim Feb 2026 – Jun 2026 | Mumbai
Product Manager

- Drove 12% lift in Add-to-Cart (8.01%→8.97%) and ~8.7% AOV increase (₹624→₹678) by owning the App & Web growth roadmap and using user research plus funnel diagnostics to prioritize experiments.
- Launched Wishlist with 3.5%+ week-one adoption; identified a 2.7x high-intent segment and targeted re-engagement to this cohort, driving 18% higher conversion vs. standard campaigns.
- Built a cost-optimized analytics pipeline from scratch, cutting analytics costs from ₹3L to ~₹14K/month (~95%) and enabling section-level click tracking that became the foundation for the experimentation roadmap.
- Introduced Claude-powered development and QA automation workflows, including Maestro.dev MCP integration with Claude, cutting manual QA effort by 50% and accelerating iteration.

Pluckk (Essar Group) Dec 2024 – Feb 2026 | Mumbai
Product Manager

- Identified perishable inventory loss as a top-3 margin risk and designed a predictive liquidation engine using sales momentum and tiered discounts, cutting ageing-inventory losses by 55%.
- Built a predictive sales projection tool using order velocity and seasonality signals; adopted for weekly planning and associated with ~30% lower overstock-driven liquidation.

Traya Health Mar 2022 – Dec 2024 | Mumbai
Technical Analyst → Associate Product Manager → Product Manager

- Owned the web growth funnel for 2.5+ years, contributing to scaling daily revenue from ₹4L to ₹1.1Cr (~30x) through an experiment-led roadmap and conversion-focused UX iterations.
- Identified female users (~30% of traffic) converting at half the male rate due to a male-coded funnel; rebuilt landing page, form and result-page touchpoints, lifting conversion 2.5%→5.3% and growing female daily revenue from ₹1.75L to ₹22.5L over the same period.
- Built a post-purchase login module with personalized Month 2 kit recommendations and a D20 countdown trigger; paired with WhatsApp retention segments, improving repurchase rate 33%→48% and strengthening LTV across later months.
- Built personalized app onboarding with a template-based CMS, improving activation 55%→68% and reducing uninstalls by ~22% for organic users.
- Helped launch Mool.health, Traya's 0→1 gut-health MVP, taking the website from launch to ~20 orders/day over 2 months.

Fractal Analytics Jan 2021 – Jun 2021 | Mumbai
Project Intern

- Supported AI Vision data-pipeline operations for a P&G project, including large-scale image-data collection and documentation for computer-vision workflows.
